

Harvard GSAS Science Policy Group

Connecting policy and science in the
Harvard graduate student community

Join us for a visit to

MASSACHUSETTS LIFE SCIENCES CENTER

Investing in the State of Innovation

October 27th
2:00 pm

The GSAS Science Policy Group will be meeting with the Massachusetts Life Sciences Center as part of our monthly visits to regional science policy organizations. We will be speaking with:

Angus G. McQuilken - Vice President for Communications and Marketing

Colin Donnelly - Senior Coordinator of Government Relations and Policy

Benjamin Bradford - Senior Coordinator of Trade Missions and International Relations

Mayra Souza - Communications and Business Development Co-op

The Massachusetts Life Sciences Center (MLSC) is an investment agency that supports life sciences innovation, research, development and commercialization. The MLSC is charged with implementing a 10-year, \$1-billion, state-funded investment initiative. These investments create jobs and support advances that improve health and well-being. The MLSC offers the nation's most comprehensive set of incentives and collaborative programs targeted to the life sciences ecosystem. These programs propel the growth that has made Massachusetts the global leader in life sciences. The MLSC creates new models for collaboration and partners with organizations, both public and private, around the world to promote innovation in the life sciences.
